

COMPENDIUM OF LOG-PADDING CASES
DA0HQ LOG

COMPENDIUM OF LOG-PADDING CASES

DA0HQ LOG

TOTAL (identified) QSO OF LOG PADDING: 2496 QSOs

In order to facilitate the tasks of reviewing the fraudulent QSO's made by one single operator or one single station, this COMPENDIUM lists all identified cases of LOG-padding, including:

- 1.- The cases listed on Report 1.
- 2.- The cases listed on Report 2 with their full string of calls.
- 3.- New cases, several coming from unsolicited emails received.

The second report contained the cases of log-padding on which different calls, belonging to one single operator, had sequential QSOs in the log. Many of those cases were just a part of a longer string of calls that systematically were repeated on the different band/modes. The extra calls were not included in Report 2 since its purpose was to list only the cases of calls belonging to one person. However the evidence is that in several cases, the operator also used other calls apart of the ones he/she owned. This COMPENDIUM also includes the complete string of the cases identified on report 2.

All the calls listed here are part of strings of LOG-padding QSO's that meet the following criteria

- 1- All the calls of the string appear in more than 5 bands/modes
- 2- The calls of the string appear sequentially on each band in at least 5 or more band/modes.
- 3.- All QSO among different bands are spaced in time and none is from the first two hours of the contest.

The statistical probability of two different calls meeting each other on 5 or more different bands within a time-frame of less than 3 minutes is lower than 1 among 10^9 assuming a flat distribution of probabilities. The criteria number 3 eliminates the cases where two different stations might have collided by chance in the race for contacting DA0HQ as speedy as possible (which is an award by the DARC) and then get linked with a similar band change pattern. This Compendium only includes cases where the statistical incidence of coincidence in different bands is considered as extremely low.

Some of the calls “caught” on the previous reports have emailed URE members to acknowledge that they used different calls and they recognised that this is a practice that has been done for years. Few of them claim that the other owners of the calls were present at the station when their calls were used. Those cases are also listed here since the General Rules clearly prohibit this situation . Rule 3.5 clearly states:

3.5.A transmitter used to contact one or more stations may not be subsequently used under any other call during the contest period, except for family stations where more than one call has been issued, and then only if the second call sign is used by a different operator. (The intent of this rule is to accommodate family members who must share a rig and to prohibit manufactured or artificial contacts.)

The explanation in brackets in the rule describes very clearly what was the purpose of this rule,

which was precisely to prohibit what has been found on all these cases of LOG-padding.

Other German hams contacted URE members to disapprove those practices by their peers and to inform that using a personal own call from a clubstation (like many of the ones listed in the reports) is not only prohibited by the Rules for the contest but also by the German legislation. This is a quote from the German legislation as received:

14.3.- Funkamateure mit Zulassung zur Teilnahme am Amateurfunkdienst, die die Klubstation mitbenutzen, haben dabei das Rufzeichen der Klubstation zu verwenden.

14.3 Radio-amateurs with approval to use the radio-amateur service, that use the Club station, have to use the callsign of the Clubstation.

Those messages were unsolicited by URE and most of their senders asked to keep their names anonymous.

This Compendium includes the cases that were identified on the first report, plus the complete strings of the calls of the 2nd report including now the other calls that were linked to several of the cases of calls belonging to the same person. Other few cases were added coming from the unsolicited emails received by URE.

Obviously this list is not exhaustive since it was not possible to identify those cases where the operator scrambled the contacts.

1.-DF0TUI DK0DX DQ0Q: 34 Q's

These 3 calls belong to DL3TD, the manager of the HQ as confirmed by the German PTT database.

2.-DL0DOK, DA0DOK, DF0DOK, DK0DOK: 20 Q's

These other four calls also belong to Lothar Wilke DL3TD (German PTT database) and they appear in the log at the very last minutes of the contest. The location (see map on QRZ.com) declared by DL3TD on QRZ.com for these 4 calls is the same from which DA0HQ operated on 160SSB, 80SSB, 40SSB and 15SSB.

9.-DK2YL, DL0YLQ, DL0VS and DL4VCR: 25 Q's

Exactly same order and same sequence of band changes. Apparently this station could not be active on 15 and 10m, so no contact on those bands for none of the four calls.

33.- DL0GH DL2F DL2FDL : 39 Q's + 5 DUPE's

The call DL0GH has many dupes. This is the problem of managing a long list of calls by one op, you can't control dupes. ¿Or perhaps someone else did the first QSOs?

Other calls: PA9TK, OE6ZMG, OZ/DJ6TK (Bornholm-Island), EA3/DJ6TK Calafell

Hello Guys, my Name is Wilf and my Age is 68. I am in Amateur Radio since 1960. I have been in the German Navy for 8 Years. (Radio Operator of My primary Mode of Operation is CW. Hablo y comprendo espanol un poco

My Licence Code is 1. I am Member of Honor Roll(Mixed)since several years. Member of the DARC, RRDXA, KCAG,DIG(1074) ,MF-Group(MF-3 and UKSMG # 964 . Since 2005 I send all of my Logs to LoTW. 6m is my special Band.

In May 1995 I visited in Company with my wife St. Petersburg by Ship(Anna Karenina) and met some Amateur Radio friends from St. Peterburg the

In February 2004 I spent with my wife a one week holiday in Turkey - near Antalya - (without any Radio Operation), only relaxing and sightseeing. In September to October 2005 and at last from December 2007 to January 2008 I spent in Company with my XYL a holiday at the Costa Dorada bea been QRV on HF Bands among EA3/DJ6TK also in the CQWWW RTTY /XMAS and HNY Contest . I will be QRV from there from time to time in CW/ PSK31/MFSK.

I have been the 1. Operator of the German special Call of the MF-Group "DA0UBOOT" and operate with the special CALL "DL50DRAX" in the Mont 2008(50.Anniversary of the German Sailing Ship "Gorch Fock".

I am the first Operator of the Clubstation **DL0MFS** from the MF-Group in Flensburg-Muerwik(MF-600) now !! The Owner of the Clubcall is DF8LD.

Responsible: [DL3BQA](#)

After getting the opportunity we decided to apply for a 2x1 call in June 2005 and here we go as DM0Y. We kept our old call DF0TEC, but in the contests we'll use DM0Y from now on. Our team is quiet active in the VHF/UHF/SHF-tests, but watch for DM0Y also on shortwave. From 2006 up to now a QTH for our activities on SW was build up and still we're trying to make things work better. Much contests have been done by DG1BHA, DH8BQA, DL3BQA and with the DM0Y-call from there. Also beacons for 10mtrs and 3cmtrs are qrv from JO73CE, look out for DBOUM.

QSLs for DM0Y pse via the bureau, direct QSLs to DL3BQA.

SWL since 1975, licensed since 1978, ex-calls DM3ZZH, Y44YH, Y31UC, Y43XE, Y22QE.

Was qrv as: RC60Y22QE, SO1DIG+S00DIG (EU-132), OZ/DL3BQA/p (EU-088), PA/DL3BQA/p (EU-038), LY2AAM (my LY-call), OZ0MS (EU-030), ES0/DL3BQA (EU-034) and TA4/DL3BQA.

Holder of the club-call DF0TEC (active on VHF/UHF/SHF from JO73CF), now qrv as DM0Y on SW and VHF.

EQSLs are accepted, but paper QSLs are preferred. Please send me your QSL via bureau if possible.

Cases confirmed by the declaration of the submitted logs to ARRL

Some of these case had already been identified above. But 122 QSO's of LOG-padding are additional to the cases described above. These additional QSO's were scrambled and were not identified. However the ops. declare themselves that they used two or more calls during the contest in their submitted logs to the Contest Committee.

DF0MFL, DF0NG, DL0BRA, DL0MUE, DP5E, -op DK8RE- (Case 71)

All these five callsigns operated by DK8RE plus his own call are included in DA0HQ LOG. One operator made a total of 66 QSOs!!!

DL0GRH, DL2DRD : 10 QSO's

DL2DRD used both his own call and DL0GRH as declared by himself on submitted logs.

DL2F, DL2FDL (Case 33)

DL2FDL used both his own call and DL2F s declared by himself on submitted logs.

DL0VV, DL5CC : (Case 11)

DL5CC used both his own call and DL0VV as declared by himself on submitted logs.

DK0ZN op. DL9JON : 24Q's

DL9JON used both his own call and DK0ZN as declared by himself on submitted logs.

DD5A, DM5DX: 19 QSO's

DD5A is a multiop station operated by: (extract from IARU HF 2009 results by ARRL):

DD5A DK3GG, DK3RA, DL4SVA, DM5DX, ops

One of the member operators, DM5DX works DA0HQ, violating rule 3.3 of General ARRL rules for HF.

DF7BL multiop, DF5BM, DJ9CN: 36 QSO's

DF7BL is a multiop station operated by: (extract from IARU HF 2009 results by ARRL):

DF7BL + DF5BM & DJ9CN

These two operators plus the multiop station work DA0HQ. On every band/mode, all three call signs are sequential.

DL0DSA multiop, DL1AMH, DO2CE: 5 QSO's

Two operators of this team also worked DA0HQ apart of DL0DSA .

DL0DSA DL1AGS, DL1AMH, DO2CE, ops

DR4A, DK5PD, DK9VZ, DL6WT, DC8SG: 52 QSO's

DA4A :was operated by:

DR4A DK5PD, DK9VZ, DJ9KM, DL6WT, DC8SG, ops

All five operators of this team, plus the contest call, worked DA0HQ.
